Everton Freitas

Software Engineer with expertise in Web Development
Fortaleza, Ceará, Brasil

Resumo

I'm a full-stack web developer passionate about optimizing user experience and driving business success. With extensive experience in front-end and back-end development, my primary focus is ensuring that the digital products I build stand out for their exceptional efficiency and performance.

My expertise in web performance involves optimizing the speed, scalability, and efficiency of web applications. I work with cutting-edge technologies, best practices, and diagnostic tools to speed up page load times, improve user experience, and boost conversions.

I'm also an A/B testing and CRO (Conversion Rate Optimization) enthusiast. I use data and insights to identify opportunities for improvement, running rigorous A/B tests and analyzing results to continuously improve user interfaces and flows.

I'm constantly seeking new challenges and opportunities to hone my development skills and web performance knowledge. If you're looking for a developer who can take your projects to the next level of performance and effectiveness, I'm ready to collaborate. Let's create high-impact and successful digital products together.

Experiência

Luizalabs

Full Stack Software Engineer
fevereiro de 2025 - Present (1 ano 2 meses)
Fortaleza, Ceará, Brazil

Kirvano

Frontend Software Engineer
novembro de 2023 - dezembro de 2024 (1 ano 2 meses)
São Paulo, Brasil

Mosaico
